Conor Hinchee

About

I am a full stack web developer focused on results and working among a team. I am familiar with Agile Methodologies and meeting deadlines. I am a contributor to open source software and Arctic Code Vault Contributor. A lover of the Web and an enthusiast of both JavaScript and React.

Skills

HTML5, CSS, JavaScript, and Typescript. Flexbox, Bootstrap, and Material UI. ReactJS and ES6. NodeJS and Express. MongoDB, MySQL, and Google Firebase. Git, NPM, and Github. Stripe and Stripe Connect.

Projects

Line Eyes — *Web App/Mobile App - currently in development*

https://github.com/captnstarburst/line-eyes-web

Line Eyes is a Tinder style swipe pregnancy test app. Users upload their pregnancy tests and other users vote if they think the test shows a positive, negative, or invalid result.

- Git and GitHub
- ReactJS
- HTML5
- CSS3
- Material UI
- Firebase
- Google Cloud
- React Native

EXPERIENCE

Those Guys Appliance Repair — *Web Developer*

https://github.com/captnstarburst/ThoseGuysApplianceRepair

August 2018 - August 2020

Using GatsbyJS and bootstrap I built a website that focused on SEO and improving conversions. The site was deployed to the Heroku cloud and featured an on page messaging system that called an api endpoint that would then text the client with customer information to further schedule appointments.

- Git and GitHub
- ReactJS
- HTML5
- CSS3

- Bootstrap
- Google APIs
- Google Analytics
- GatsbyJS
- Schema MarkUp
- Open Graph API
- Social Media Marketing

- SEO
- Heroku
- HTTPS
- Node JS
- Express JS

Resolvve, Remote — *Full Stack Web Developer - Independent Contractor*

https://resolvve.com/

March 2019 - PRESENT

- Resolvve is a social media app, where users pay money to get things done

I worked on the integration of payments utilizing both Stripe and Stripe Connect. I built private REST API endpoints on the google cloud platform using NodeJS and Typescript. Assisted in building user interfaces using React and Bootstrap. I had a role in database management using Cloud Firestore. I focused heavily on security using the OWASP top .10

- Stripe/Stripe Connect
- Firebase
- Google Cloud Functions
- NodeJS/Typescript
- ReactJS
- Jest
- HTML5
- CSS3
- Bootstrap

- Google API
- Schema MarkUp
- Open Graph API
- SEO
- REST API Endpoints
- Open API/Swagger
- OWASP 10
- Image Manipulation
- UX/UI

Education

Western Governors University	2020 - Current	Bachelor's of Computer Science
Clovis High School	Graduated 2009	High School Diploma
